

COPS Baseline 5-1: Standard Survey Truck Inventory Checklist

ABSTRACT

Employees should always leave for a site prepared for any type of surveying job. The purpose of this document is to provide inventory control of survey crew equipment. This form provides a checklist for the employee to reference before leaving for every surveying job, and specifies for:

- Surveying Tools
- Standard surveying technology
- Emergency and safety equipment

The form also allows the user to add items that may be state or firm specific.
