

## ***Top Ten Reasons To Join ACEC***

1. Mobilizes the collective strength of more than 5,000 engineering firms into a powerful political voice for the engineering industry.
2. Promotes legislative, regulatory, and judicial actions of critical importance to the engineering industry, including contracting out and investment in water, transportation, and energy infrastructure.
3. Advances tort reform and professional liability protections to shield engineering firms from frivolous lawsuits; and advances tax and regulatory reforms to benefit the industry.
4. Protects and promotes Qualifications-Based Selection (QBS) at the federal and state levels.
5. Supports pro-industry Members in Congress through ACEC/PAC, the industry's largest political action committee.
6. Supports legal and legislative actions in the states through the Minuteman Fund to benefit the engineering industry.
7. Strengthens member firms' bottom lines through business-focused educational programming, publications, coalitions, and forums.
8. Brings industry leaders together at national conferences and meetings to discuss key issues.
9. Delivers the latest updates and analysis on key issues affecting engineering firms through award-winning publications: *Last Word* and *Engineering Inc.*
10. Provides significant cost savings to member firms through the ACEC Business Insurance Trust, ACEC Life/Health Insurance Trust, ACEC Retirement Trust, and other programs.
