Lu Engineers' Robert Hutteman to Receive National Community Service Award

WASHINGTON—Robert Hutteman, president of Lu Engineers, in Pittsford, N.Y., will receive a 2011 Community Service Award from the American Council of Engineering Companies (ACEC) at the upcoming ACEC Fall Conference in Las Vegas on October 21.

The award recognizes a principal or manager of an ACEC member firm who has made a significant contribution to the quality of life in his community.

Hutteman is chairman of the Town of Arcadia Planning Board; a board member of the Wayne County Water and Sewer Authority; vice chairman of the Western Fingerlakes Solid Waste Authority; a trustee for the Newark Wayne Community Hospital; chairman of the Saint Michael School Advisory Committee; and is active in both the Cub Scouts and Boy Scouts.

Hutteman's professional expertise came in handy when he volunteered to write the grant request that ultimately secured \$500,000 in federal funding for repairs to a bridge in Arcadia. He then helped manage the ownership transition of the bridge from the town to Wayne County.

The American Council of Engineering Companies (ACEC) is the business association of America's engineering industry, representing more than 5,000 independent engineering companies throughout the United States engaged in the development of America's transportation, environmental, industrial, and other infrastructure. Founded in 1909 and headquartered in Washington, D.C., ACEC is a national federation of 51 state and regional organizations.
